

HEALTH & LIFE SCIENCES

Hundreds of life science businesses are leading innovation in the Round Rock-Austin MSA, including hospitals, medical laboratories, biopharmaceutical companies, health care IT, and research and development centers. Medtech thrives in the city thanks to a combination of medical research, talent, and the high technical aptitude of companies within the region.

INDUSTRY ECOSYSTEM

Round Rock is a major economic hub for Central Texas and a budding location for the health and life sciences industry.

Produces high quality certified reference standards and components for test kits

Leading developer and manufacturer of high-purity, pharmaceutical cannabinoid ingredients and products

Manufacturer of clear aligners that discreetly correct malocclusion

World's largest manufacturer of after-market Candela replacement parts and consumables

Environmental biotechnology research, development, and manufacturer of biological products

World leader in supplying scientific instrumentation

STEP UP TO TALENT

Life science companies in Round Rock are in close proximity to education institutions, including Austin Community College, Texas State University, Texas A&M Health Sciences Center and the Dell Medical School at the University of Texas, all of which help keep the city well equipped with skilled talent to solve the healthcare challenges of the 21st century .

There are more than 20 colleges and universities providing life sciences-related and healthcare education in the Austin-Round Rock region.

LIFE SCIENCES EDUCATION IN ROUND ROCK

RESEARCH IN ROUND ROCK

Texas State University – Round Rock Campus is launching a research incubator to fuel startups and companies with a focus on life sciences and medical fields. The facility will feature offices, wet-and-dry labs and collaboration spaces. This initiative supports Texas State University's goal of becoming a national research leader and Round Rock's vision of being a life sciences hub by promoting commercialization, entrepreneurship and innovation.

INVESTING IN THE FUTURE OF HEALTHCARE
